

UW50 UTENSIL/PAN WASHER

Save time and money with the UW50 Utensil Washer from Hobart.

No cleanup is too big or too small for the UW50 Utensil Washer from Hobart. Perfect for supermarket delis and bakeries, hospitals, schools and other institutional kitchens. Cleans utensils, pots, pans, meat lugs, bun pans, deli containers, 16 full-size sheet pans, and mixing bowls up to 140 quarts. Even handles machine-washable parts from mixers, slicers, grinders, saws and other food equipment. The UW50 makes light work of soiled trays, too.

Fits your need for fast, efficient, easy cleanup of sheet pans, pots and trays.

Proud supporter of you.®

Special features help you clean better, faster; more cost-effectively.

Keep 'em coming with extra-wide front-load design.

What could be faster, easier and more convenient than front loading! The UW50 features a split door system with pull-out rack that makes it easy to open, load and unload. Plus, the extra-wide 47-inch unit holds more utensils than most competitive models and makes loading and unloading a breeze.

Four wash arms with debossed, computerized design provide double-duty washing action.

With the UW50, you know that whatever goes in soiled, comes out clean. The UW50 has four stainless steel revolving upper and lower wash and rinse arms that wash and sanitize with a direct spray over the full rack. What's more, these wash arms have integral debossed nozzles that resist clogging, remove easily as a unit—without tools—for cleanup. Nothing can compete.

Special strainer system solves soil problems.

Let the UW50 do the dirty work. Stainless steel, sloping strainer pans collect food soil in a deep, perforated stainless steel basket. No redeposit of soil or time-consuming rewashes. Basket and strainer pans can be removed for cleaning without draining the machine.

Select your cycle.

Do your cleaning needs differ? Do your load sizes vary? The UW50 can accommodate *all* your needs with an adjustable timer. Choose from 2-, 4- and 6-minute cycles for thorough cleaning of every load. The UW50 is available in electric, gas and steam heat and uses only 2.1 gallons of water per cycle.

Mean, clean machine.

The Hobart UW50 Utensil Washer is a lasting part of your operation. The all-stainless steel design ensures it. That includes our standard stainless steel front panel and frame. The UW50 is a mean, clean machine that will stand up to years of use in your operation.
