

>>> SINGLE SECTION DUAL-TEMP <<< (W-WIDTH ONLY)

Outstanding performance ideal for use in any busy kitchen

Plug & play microprocessor control provides greater precision & reliability

Large, usable storage capacity

All metal cabinet construction reduces lifetime service costs and provides for long equipment life

The primary problem with single section refrigerator/freezers has always been their limited storage capacity. This is because traditionally all the space on top required by the two refrigeration systems forced placement of the bulky evaporators inside the food zone. That is until now.

Traulsen is proud to introduce our latest innovation, single section dual-temps which offer more real capacity. By shifting the evaporators to the side wall it was possible to free up significant vertical storage space. For you this means more shelves or more tray slides, and more refrigeration for your dollar.

This simple change also provides many other high value ownership benefits, proving that sometimes you really can reinvent the wheel.

Benefit Highlights

- Greater refrigerated & frozen storage space
- Now accommodates (total)...
 - 8 Shelves on Pins
 - 24 #1 Type Tray Slides
 - 24 #2 Type Tray Slides
 - 24 #3 Type Tray Slides
 - 34 #4 Type Tray Slides
 - 12 Universal Type Tray Slides
- Reduced energy usage

AVAILABLE MODELS

RDT132WUT-HHS & ADT132WUT-HHS

Trusted Product Summary

>> Overall Performance & Design Benefits

- Outstanding temperature maintenance & recovery means reduced shrink/less food cost
- Reduced energy usage means lower utility bills
- Reliable microprocessor controls limit lifetime service cost by replacing time clock, temperature control, limit switch, etc.
- Durable, all-metal construction equates to reduced lifetime service costs and long equipment life
- Large usable capacity means more storage space for your dollar
- Special door pan design protects the gaskets, reducing frequency of replacement, saving you maintenance costs
- Easy-to-clean front facing condenser encourages proper care
- Self-closing/stay open doors provide operator convenience
- Load-Safe guard protects against improper or over loading
- Factory installed interior saves installation time & money
- Doors easily wide enough to accommodate 18" x 26" sheet pans
- Value added warranties: two-year control, lifetime door handle/hinge
- Options include: Add'l. Shelves, Tray Slides, Casters
