FT1000e Flight Type Dish Machine

Wash smarter, with peak performance and the lowest total cost of ownership

advansys™

FT1000e LOW ENERGY FLIGHT TYPE

Realize Peak Performance and the Lowest Total Cost of Ownership for Food Service Operations

Designed for high volume operations, the New Hobart FT1000e Flight Type Dishwasher considerably reduces energy use and amp load requirements. This results in the lowest Total Cost of Ownership in the industry, saving operators thousands of dollars in energy costs annually for greater lifetime value.

HOBART MAKES IT EASY

-  Responsive Service Team in all 50 States
-  Customized Service Programs
-  Free Factory Startup
-  18 Month & Extended Warranty

Insulated Cabinet-Style Doors

provide easy access for cleaning wash arms, conveyor, and drains.

Capless Wash Arms with Anti-Clogging Nozzles

ensure optimal, consistent performance.

Recirculating Pre-wash Section

removes food soil missed in prescrapping before entering the wash tank, keeps wash water cleaner longer.

Complete Delime™ with Booster Guard™

notifies operators when it's time to delime, then automatically doses delimer into the final rinse section & booster, reducing the handling of chemicals & preserving the life of the machine & booster.

Lowest Amp Load

reduces wiring and circuit breaker costs, simplifies replacing older dish machines.

Digital Controls with Troubleshooting & Diagnostics

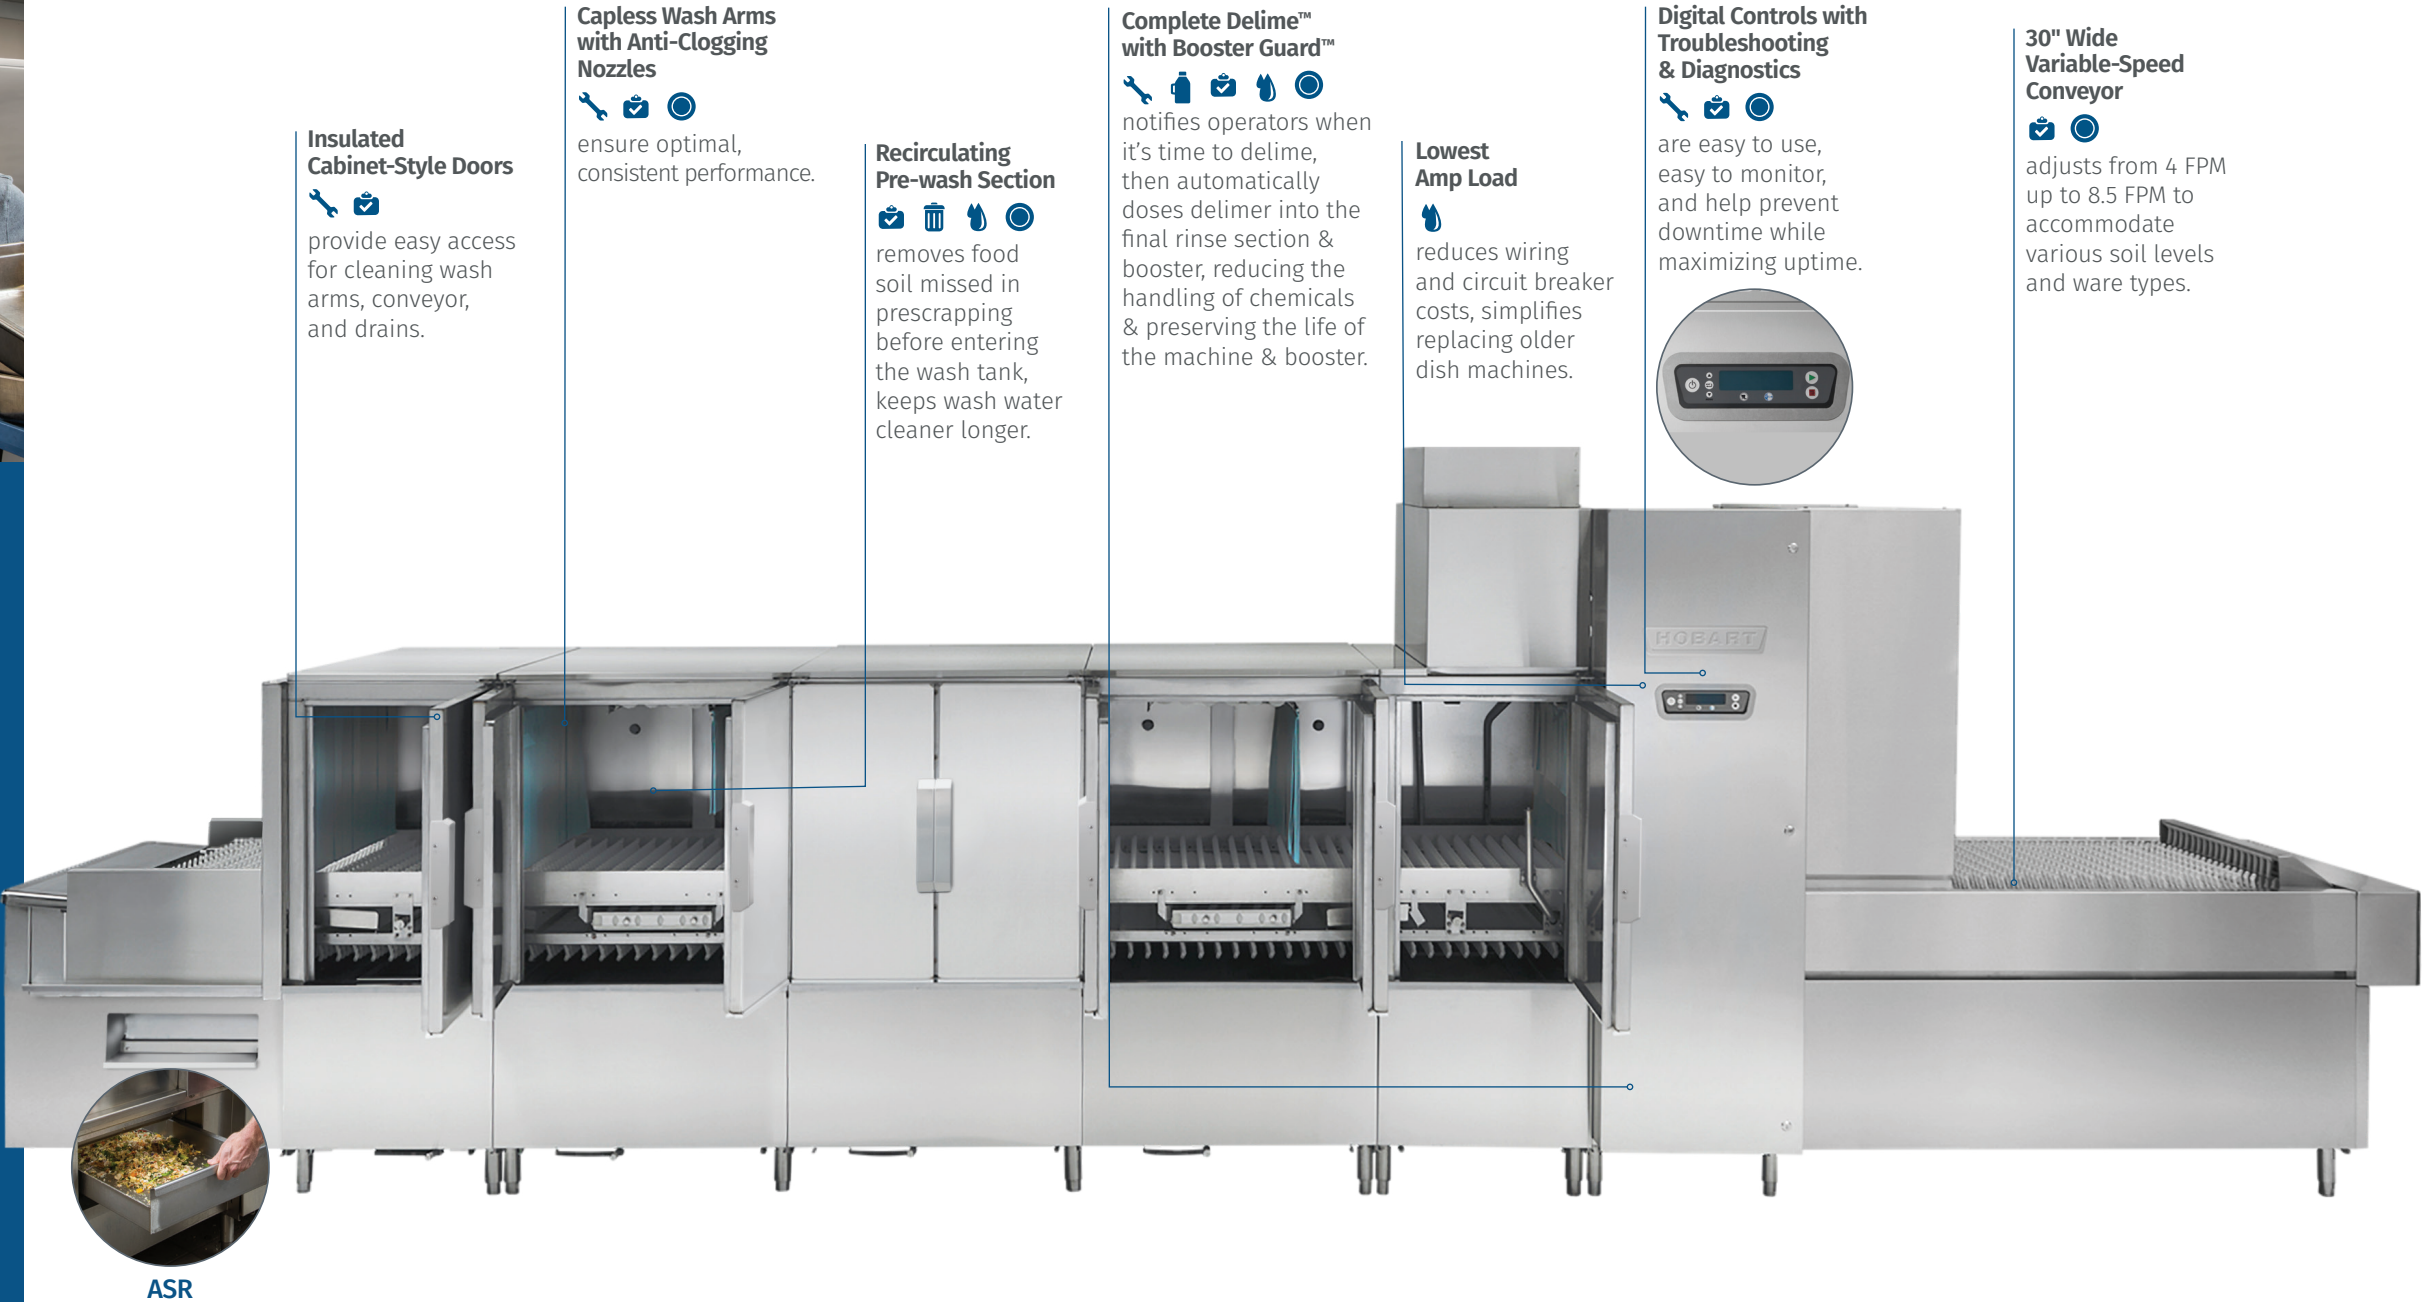

are easy to use, easy to monitor, and help prevent downtime while maximizing uptime.

30" Wide Variable-Speed Conveyor

adjusts from 4 FPM up to 8.5 FPM to accommodate various soil levels and ware types.

ASR

HOBART PERFORMANCE BENEFITS

-  Cleaning Performance
-  Utilities
-  Chemical Optimization
-  Soil Management
-  Labor Management
-  Life Cycle Management

LOWEST POWER CONSUMPTION

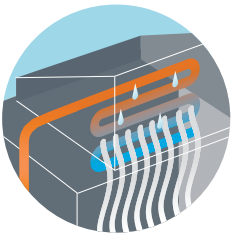

Hobart's design advancements lower energy costs up to \$6,700 with the lowest amp load.

REDUCE INSTALLATION COSTS \$3,000 LOWEST AMP LOAD	15%+ REDUCTION IN POWER CONSUMPTION
\$3,500* COST SAVINGS VERSUS COMPETITIVE MODELS	CALL FOR A FREE TCO AUDIT

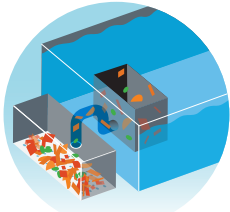

*Projected annual energy cost savings from FT1000e Advansys vs. competitive machines running 10 hrs./day, 365 days.

advansys™

SAVE YOUR OPERATION TIME & MONEY

CUT ENERGY CONSUMPTION UP TO 20%
Energy Recovery System reduces energy use by capturing escaping heat and steam from the exhaust air.

REDUCE WASH WATER CHANGES UP TO 50%
Automatic Soil Removal (ASR) removes up to 80% of food soil before it reaches the pre-wash tank.

GET THE RIGHT SOLUTION FOR YOUR DISHROOM

STANDARD FEATURES	EGR	BASE	SHORT
Rinse Rate (Gallons/Hour)	58	58	58
Dishes Per Hour	10,610-14,310	10,610-14,310	10,611
Blower Dryer	Optional	Optional	EGR
Complete Delime™ with Booster Guard™	●	●	EGR

Cost of Ownership Savings	\$4,710*	\$3,110*	\$3,100*

Free Startup from Hobart Service included with all FT1000e models.

* Projected annual savings from comparison of FT1000e vs. previous FT1000 model type running 10 hours a day, 365 days with electric heat.

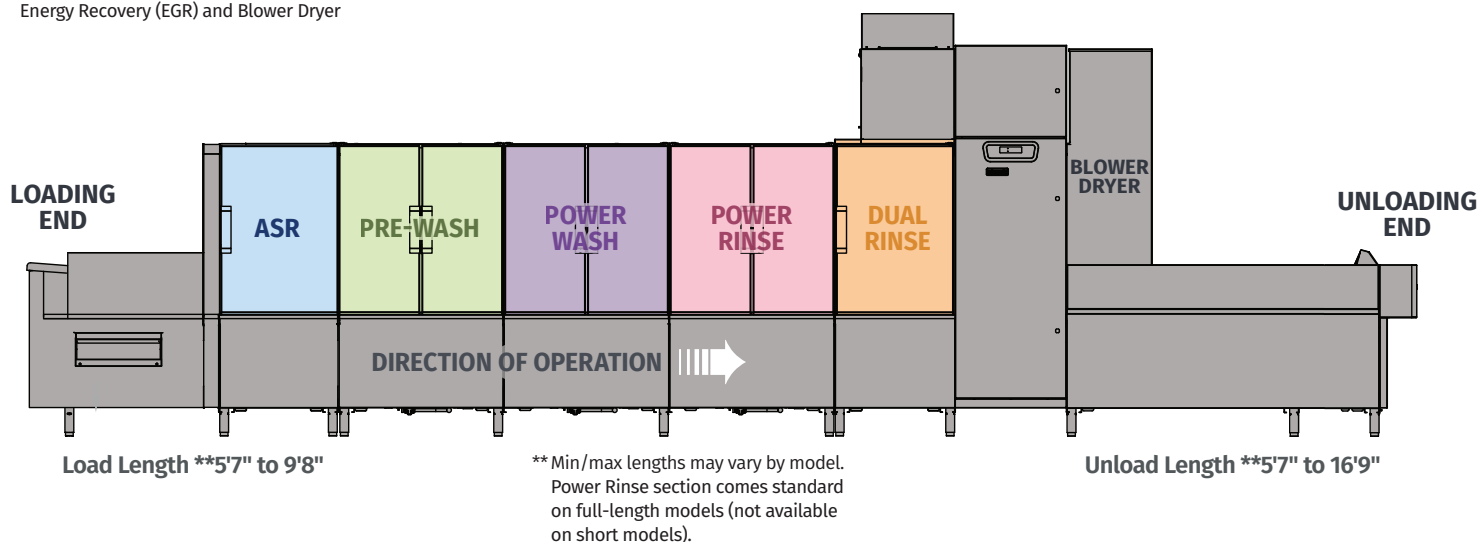

OPTIONS AND ACCESSORIES

- ASR (Auto Soil Removal Tank)
- EGR (Energy Recovery)
- 6" higher than standard chamber
- Multiple conveyor choices
- Circuit breakers and single point connection
- Security and Casino packages
- Flanged feet
- Insulated split, vertical slide-up doors
- Water hammer arrestor/PRV
- Drain water tempering kit

FT1000e WASHER STANDARD CONFIGURATION

Configuration shown includes Pre-Wash, Power Wash, Power Rinse, Dual Rinse and ASR, with Energy Recovery (EGR) and Blower Dryer

CONVEYOR CHOICE IS CRITICAL

General Ware (plates and bowls), Prep Ware, Occasional Pans
Consider Standard conveyor

Insulated Ware, Plates & Trays, Prep Ware
Consider Type A conveyor

Correctional Meal Trays
Consider Tivoli conveyor

Totes, bins, or other non-dishware
Please call to discuss your best options.
