Ingenuity On Wheels[™]

HEALTHCARE

MEDICAL MOBILE SOLUTIONS PROVIDER

You can create a lot of history in 75 years, and the team here at Lakeside understands that more than just about anyone. We were founded by a World War II Navy veteran who decided he didn't want to work for anyone else, and from those very first days until now, the same sentiment exists -- Lakeside can make it happen, and we're going to have fun doing it.

Now, that brings us to the stories. Being successful for so many decades as a "can-do" company doesn't just happen. You have to learn from the "can't dos" first. Our history here at Lakeside has led us from barbecue grills to wooden playhouses and from cadaver coolers to motorized wheelchairs. We've gone from the shores of Lake Michigan to the beaches of St. Croix, and we've had periods of time when we've focused internally and then opened the windows -- quite literally -- and listened to the outside world. There are hundreds of anecdotes in between, and all of them add up to a single point:

“There are reasons and stories behind everything we manufacture, and they've helped us refine our products to be the best in the industry.”

C-630-P-2B

Anesthesia Cart

32"L X 25"W X 46.25"H

Lakeside Classic Anesthesia carts allow for storage, organization, and security of all required supplies. The Lakeside C-630-P-2B Anesthesia Cart is blue with telegraph gray, has a push button lock, and (6) drawers. This cart provides secure, mobile storage for medical supplies. Its steel construction is durable with a powder coated finish. Motorized Utility Cart

45.50"L X 24.50"W X 40.50"H

Stainless Steel Motorized Utility Carts by Lakeside Manufacturing are ideal for hauling heavy loads over long distances and up and down inclines in healthcare facilities. The Lakeside 163422 Motorized Utility Cart has (3) shelves measuring 24.5" x 36" with a weight capacity of 1000-Lb. This motorized medical utility cart on wheels limits injuries when hauling heavy loads for long distances over steep inclines. This Lakeside motorized assisted cart has a self-contained electric motor transaxle and simple handle controls with two speed options. This utility cart's forward and reverse controls allow operator to push or pull cart. The 163422's static release floor belt dissipates static charge, while its power axle release allows for non-motorized use. This medical utility cart's emergency stop feature ensures operator safety and prevention of injuries. Its power cord holder allows for easy access to charge and neat tuck-away while in use. This cart has a quick charge battery system for quick and easy charging. Its all-welded stainless steel heavy-duty construction is easy to clean and sanitize. The 163422 has non-marking flat-free drive wheels, 2 ea. 8" swivel casters with brake for smooth maneuverability. Modify existing standard products. Superior lead times. Made in the USA.

- Motorized assisted cart has a self-contained electric motor transaxle.
- Simple handle controls with two speed options.
- Forward and reverse controls allow operator to push or pull cart.
- Static release floor belt dissipates static charge, while power axle release allows for non-motorized use.
- Emergency stop feature to ensure operator safety and prevent injuries.
- Power cord holder for easy access to charge and neat tuck-away while in use.

UTILITY CARTS ERGONOMIC

7020

Ergo-One System Utility Cart

41.38" L X 21.63" W X 46.75" H

Ergo-One System Utility Carts by Lakeside Manufacturing are designed to reduce injuries caused by improper pushing, lifting and loading by healthcare operators. The Lakeside 7020 Ergo-One System Utility Cart with (2) shelves measuring 21" x 33" has a weight capacity of 700-Lb. This ergonomic utility cart's vertical handle with comfortable grip ensures an operator's wrists are in the correct position for pushing and steering. This Lakeside cart's shelves are located within a "Safety Zone" that is the proper height for loading and unloading, bottom shelf is 20" (508) from the floor. This utility cart's no-mark, extra load, cushion-tread casters absorb impact, reducing vibration and strain. This medical utility cart's 18-gauge stainless steel shelves are reinforced for added strength, while its all-welded construction is durable for a stronger structure and easier-to-clean surface. This ergonomic utility cart's stainless steel is easy to clean and sanitize. Its leg bumpers protect walls and furniture. Largest selection on the market. Superior lead times. Made in the USA. The SAFETY Zone: Ergonomics is the term defining work methods and tools designed to accommodate the human body. Ergo-One System carts are designed to be "body friendly." to help prevent injuries resulting from repetitive loading and unloading. Ergo-One shelf heights are in the "safety zone" – the bottom shelf is 20" (508 mm) from the floor; the top shelf is 34.125" to 35.75" (867 mm) from the floor.

- Vertical handle with comfortable grip ensures wrists are in the correct position for pushing and steering.
- Shelves are located within a "Safety Zone" that is the proper height for loading and unloading, bottom shelf is 20" (508) from the floor.
- No-mark, extra load, cushion-tread casters absorb impact, reducing vibration and strain.
- 18-gauge stainless steel shelves reinforced for added strength.
- All-welded construction is durable for a stronger structure and easier-to-clean surface.
- Stainless steel is easy to clean and sanitize.

UTILITY CARTS EXTREME DUTY

NSF

8820

Extreme Duty™ Stainless Steel Utility Cart

36.50" L X 21.25" W X 37.22" H

Stainless Steel Utility Carts by Lakeside Manufacturing are ideal for receiving dock and storage room use, loading and moving medical supplies and equipment, and transporting heavy-duty loads up to 1500-Lb over uneven surfaces. The Lakeside 8820 Extreme Duty™ Stainless Steel Utility Cart with (2) shelves measuring 21" x 33" has a weight capacity of 1500-Lb. This utility cart's angled "U"-shape design virtually eliminates stress points in the frame, while its 1" thick square tubing reinforcement under its 14-gauge shelves withstands heavy object drops, even on shelf edge. This Lakeside utility cart's fully welded joints ensure even vulnerable points are as rugged as possible, no pry points. Its no-mark, extra load, cushion tread wheels absorb impact, reducing vibration and strain. The 8820's stainless steel construction with durable full bead welding is easy to clean and sanitize. Resists staining and rusting. Ideal for 24-hour operations to transport heavy loads over various indoor or outdoor surfaces. This model is NSF listed. Modifiable to meet your needs. Superior lead times. Made in the USA.

- Angled "U"-shape design virtually eliminates stress points in the frame.
- 1" thick square tubing reinforcement under 14-gauge shelves withstands heavy object drops, even on shelf edge.
- Fully welded joints ensure even vulnerable points are as rugged as possible, no pry points.
- No-mark, extra load, cushion tread wheels absorb impact, reducing vibration and strain.
- Stainless steel is easy to clean and sanitize.
- All stainless steel construction with durable full bead welding.

526

Guard Rail Utility Cart

31"L X 19"W X 33.75"H

Guard Rail Utility Carts by Lakeside Manufacturing eliminate spills and breakage during transport of medical supplies that could easily tumble off the shelves. The Lakeside 526 Guard Rail Utility Cart with (3) shelves measuring 18" x 27" has a weight capacity of 500-Lb. This utility cart's front rails on all three of its shelves prevent items from falling during transport. This Lakeside cart's all-swivel casters provide ultimate maneuverability, with its integrated push handle for comfortable guiding cart with ease. This medical utility cart's sound deadening material under its shelves restricts vibration and noise. This cart has all-welded construction for a stronger structure and easier-to-clean surface. This Lakeside cart's stainless steel is easy to clean and sanitize, while its bumpers on legs and handles protect walls and furniture. Customize your design with Lakeside cart experts. Superior lead times. Made in the USA.

- Front rails on all three shelves prevent items from falling during transport.

411

Stainless Steel Utility Cart

27.63"L X 16.75"W X 32"H

UTILITY CARTS MEDIUM DUTY

Stainless Steel Utility Carts by Lakeside Manufacturing are ideal for hauling and restocking medical supplies, surgical equipment set-up, medium duty transport and storage. The Lakeside 411 Stainless Steel Utility Cart with (3) shelves measuring 15.5" x 24" has a 500-Lb. weight capacity. This utility cart's all-welded angle leg design provides durability, while its reinforced, hemmed front adds strength where the cart is most vulnerable to stress. The 411's sound deadening material under its shelves restricts vibration and reduces noise, while its stainless steel construction is easy to clean and sanitize. This medical utility cart has bumpers on its legs and handles to protect walls and furniture. The 411 is constructed of a durable, unitized electronically welded angle leg frame. Equipped with 4" diameter all-swivel casters to smoothly maneuver around tight spaces. Ideal for use in clinical environments and designed for central supply, distribution, and storage tasks requiring a 500-Lb. weight capacity. Endless variations and feature combinations. Superior lead times. Made in the USA.

- All-welded angle leg design provides durability.
- Reinforced, hemmed front adds strength where the cart is most vulnerable to stress.
- Sound deadening material under shelves restricts vibration and reduces noise.
- Stainless steel is easy to clean and sanitize.
- Bumpers on legs and handles protect walls and furniture.
- Durable, unitized electronically welded angle leg frame.

745

Multi-Shelf Cart

38.5"L X 21.5"W X 49.13"H

Multi-Shelf Carts by Lakeside Manufacturing maneuver heavy-duty loads easily in narrow or crowded healthcare areas. The Lakeside 745 Multi-Shelf Cart with (4) shelves measuring 21" x 33" has a weight capacity of 700-Lb. This cart's narrow width fits easily in elevators and other confined spaces, while its U-shaped frame provides superior strength. This Lakeside cart has all of its shelf edges down for easy loading and unloading from all sides. This medical utility cart's all-welded angle leg construction makes for a stronger structure and easier-to-clean surface. Its stainless steel construction is easy to clean and sanitize, while its no-mark cushion-tread wheels absorb impact for quieter operation. Equipped with 2 fixed and 2 swivel 5" casters to guide cart in a straight line, while making turns easier. Customize your design with Lakeside cart experts. Superior lead times. Made in the USA.

- Narrow width fits easily in elevators and other confined spaces.
- U-shaped frame provides superior strength.
- All shelf edges down for easy loading and unloading from all sides.
- All-welded angle leg construction for a stronger structure and easier-to-clean surface.
- Stainless steel is easy to clean and sanitize.

UTILITY CARTS MULTI-SHELF

163421

Push-Pull Utility Cart

38"L X 21"W X 41.75"H

Push-Pull Utility Carts by Lakeside Manufacturing provide flexibility of pushing and safely pulling actions when hauling heavy-duty loads. The Lakeside 163421 Push-Pull Utility Cart with (3) shelves measuring 21" x 33" has a weight capacity of 700-Lb. The Lakeside cart's swing-out handle allows for safe pushing or pulling action, while its hinged handle locks securely in the upright position for conventional pushing action. This utility cart's all-welded stainless steel construction is easy to clean and sanitize. This foodservice cart on wheels is equipped with 5" cushion tread casters, (2 ea.) fixed, (2 ea.) swivel with brake for smooth maneuverability. This cart's durable 700-Lb. carrying capacity allows for easy transport of heavy-duty loads over long distances. It provides full visibility when pulling cart to ensure operator safety. This cart is offered with an optional on-board hitch bar system that allows for towing of multiple carts. This multifunctional piece of equipment helps save money, time, and space. Easy to load and unload. Push or pull loads for ultimate flexibility. Endless variety of customizable options. Lakeside has unbeatable lead times. Made in the USA.

PUSH-PULL HANDLE

**PATENTED
PUSH/PULL
DESIGN**

- Transport up to 3X More and Make 3X Fewer Trips when Towing Multiple Push-Pull Utility Carts.
- Save labor and make fewer trips by towing multiple carts using optional on-board hitch bar system.
- Stay out in front while pulling for full visibility of the path ahead and safe navigation of crowded spaces.
- Take full strides with the swing-out handle and reduce ankle contact while pulling.
- Swing-out handle with integrated latch lowers for pulling and towing multiple carts.
- On-board hitch bar system includes hitch receiver bushing to reduce friction and component wear, plus convenient on-board storage for the optional drawbar when not in use.
- Optional #169168 Stowable Drawbar with on-board storage required to connect multiple Push-Pull carts.
- Available as Trailing Cart # 169167 without swing-out handle for dedicated towing applications.
- All-welded stainless steel construction is easy to clean and sanitize.
- Durable 700 lb. (300 kg) capacity is ideal for the continuous moving of heavy loads over most standard floor surfaces.

311
Stainless Steel Utility Cart
 27.5”L X 16.25”W X 32.13”H

UTILITY CARTS STANDARD DUTY

Stainless Steel Utility Carts by Lakeside Manufacturing are ideal for hauling and restocking medical supplies, surgical equipment set-up, light duty transport and storage. The Lakeside 311 Stainless Steel Utility Cart with (3) shelves measuring 15.5” x 24” has a 300-Lb. weight capacity. This cart’s bumpers on its legs and handles help protect walls and furniture, while its all-welded angle leg design provides durability. This utility cart’s sound deadening material under its shelves restricts vibration and reduces noise. This medical utility cart on wheels has a reinforced, hemmed front that adds strength where the cart is most vulnerable to stress. Its stainless steel construction is easy to clean and sanitize. Unitized electronic welding is used to fasten the 311’s shelves and handle to the frame. Ideal for transporting light duty loads up to 300-Lb. in clinical environments. Endless variations and feature combination. Superior lead times. Made in the USA.

- Bumpers on legs and handles help protect walls and furniture.
- All-welded angle leg design provides durability.
- Sound deadening material under shelves restricts vibration and reduces noise.
- Reinforced, hemmed front adds strength where the cart is most vulnerable to stress.
- Stainless steel is easy to clean and sanitize.
- Unitized electronic welding is used to fasten shelves and handle to the frame.
